Cutters

The Most Versatile Cutters Available

PHOENIX RESCUE EQUIPMENT offers the most versatile line of rescue cutters available, each designed as a stand alone heavy duty cutter as well as the perfect compliment to the cutting capability of the PHOENIX RESCUE TOOL, all at half the operating system pressure necessary to power high pressure rescue tool systems.

S/O Cutter

Heavy duty conventional style cutter with replaceable tool steel blades. The wide opening curved blades are ideal for gripping and holding material to be cut.

S/B Cutter

Heavy duty serrated tool steel blades provide non-slip cutting action, Dual moving blades with spreading capability make this cutter ideal for the heaviest cuts, and an excellent performer in simultaneous tool operation situations.

CSB Cutter

Heavy duty serrated tool steel blades provide non-slip cutting action. All New compact design delivers maximum power in a small package. Ideal for use in tight spaces.

FEATURING: Serrated Tool Steel Machined Blades, Hardcoat Anodize Finish, Safety Grip Deadman Control, Low Pressure Lightweight High Performance Design, Quick Cycle Times, Weight Balanced For Ease of Operation.

Performance Data	Model CSB	Model S/B	Model S/O
Opening Distance	9.5 in. (24.13 cm)	9.5 in. (24.13 cm)	8 in. (20 cm)
Cutting Force	74,110 lbs. (330 kn)	130,600 lbs. (581 kn)	89,600 lbs (399 kn)
Spreading Force	92,200 lbs. (410 kn)	118,100 lbs. (525 kn)	N/A
Dimensions (LxWxH)	29x9x8.5 in. (73x23x21 cm)	29x9x8.5 in. (73x23x21 cm)	37x9x11 in. (94x23x28 cm)
Weight	37 lbs. (17 kg)	44 lbs. (20 kg)	37 lbs. (17 kg)
