

Rescue Tools

The Most Powerful Combination Ever

PHOENIX RESCUE EQUIPMENT offers the most versatile line of combination rescue tools ever built, each designed as a stand alone heavy duty rescue device as well as the perfect compliment to our separate cutters, all at half the operating system pressure necessary to power high pressure rescue tool systems.

Model 18

The most powerful small combination tool available. The Model 18 opens farther than any other small combination tool and offers "big" tool performance in a compact lightweight package that is ideal for first responders and to compliment heavy rescue sets.

Model 25

The only midsize combination tool on the market. The Model 25 features full size tool spread and performance, plus an 8" opening cutter. The PHOENIX Model 25 is the world's most versatile rescue tool.

Model 32

The only full size combination tool on the market. The Model 32 is the widest opening, most powerful combination rescue tool available, providing the performance necessary for true heavy rescue capability.

FEATURING: Dual Pilot Check Valves, Replaceable Jaws and Cutter Blades, Hardcoat Anodize Finish, Safety Grip Deadman Control, Low Pressure Lightweight High Performance Design, Quick Cycle Times, Weight Balanced For Ease of Operation.

Performance Data	Model 18	Model 25	Model 32
Spreading Force	137,700 lbs. (613 kn)	89,310 lbs.(397 kn)	57,810 lbs. (257 kn)
Opening Distance	18 in. (45.7 cm)	25 in. (63.5 cm)	32 in. (81.3 cm)
Cutting Force	49,730 lbs. (221 kn)	89,600 lbs. (399 kn)	70,190 lbs. (312 kn)
Cutter Opening	12 in. (30.5 cm)	8 in. (20.3 cm)	10 in. (25.4 cm)
Dimensions (LxWxH)	31x11x8 (78x26x15 cm)	34x11x7.5 in (85x30x22 cm)	39x13x8.5 in (99x32x24 cm)
Weight	37.5 lbs. (16 kg)	45 lbs. (20kg)	57 lbs. (25.9 kg)
